tion are thankfully accepted, and should be sent
to the assistant treasurer, 2 o 151 East Thirtyseventh-st, who will see that the best disposition

The classes are held in large, bright rooms, giving

to each student excellent opportunities for study-

keeping, or receive thorough business training, also

self-support, and applicants must be between the ages of eighteen and thirty-five, and not connected

ages of eighteen and thirty-five, and not contected with other schools. Application for admission to the classes must be made in person and satisfactory references are invariably required. Many of the departments will be open to-morrow and the instruction will continue until June 1. All pupils are required to piedge themselves to punctual and regular attendance. A deposit of 11 must be made before entering any class, which deposit will be returned at the close of the term, unless forfeited by absence or withdrawal from the stidles.

Students are expected to provide, at their own expense, all necessary materials, which may be

The bookkeeping drawing, water-color and cooking classes are so well filled that there is not enough room for those who wish to enter.

The Hible class is held in the ball every Sunday at 8 o'clock p. m., and all women are welcome; devotional meeting every Tuesday evening at 8 o'clock, and Hible instruction and services of song are held in the chapel every Sunday afternoon at 3 o'clock, to which strangers are cordially invited.

The class in physical culture is filled to overflowing and eagerly attended, showing plainly the need of a larger space and a well-appointed gymnasium.

need of a larger space and a well-appointed gymnasium.

The Young Women's Christian Association does a beautiful work, nobly planned and carefully carried on. And the good work does not stop at mental training; it gives a new life to many a poor girl tired out with the burden and strife of her hard daily life, patiently and hopefully lived. The "Fresh Air Fund" and "Travellers" Aid" have helped hundreds of mothers, and they have returned with a new lease of life and blessings in their hearts for the goodness and kindness of those who help carry on this work.

HYPNOTISM AT HOME.

REMARKS ON THE PRACTICABILITY OF

APPLYING IT TO EVERY-DAY LIFE.

nypholism, like electrony, has always been with us, but not until recently have we been familiar with even the phenomena of either, and still more recently have we made practical application of the power of each to the necessities of every-day life. If one understands that love is the result of hypno-

tism, then our moods are also a result of hypnotism

and even genius may trace itself to the same source

Now, this may sound heavy and profound, but it is

not. When you concentrate your mind upon a sub

ject, the result is a hypnotic state, self-imposed. One can see how this might prove the connecting link be-

tween mind and matter. For example, you think you are ill. You concentrate on the subject of

your illness, and you finally hypnotize yourself

into genuine illness. The Christian Scientist says: "Pray to be well, and you will recover." The

mental scientist bids you repeat to yourself state-ments about your well-being and you will at once

be well. These conditions are but another name

tion and circumstance, my notion is that the sooner we come to an understanding on the subject the

things are made clear. We can discern why it is

pects of us when that somebody understands and appreciates us. It's a simple case of hypnotism, and, considering the amount of good that must

well learn to be hypnotists. One can see how a

way to a regular gold mine of wisdom, opening up

deposits of sympathy that are hidden away so

deeply that even the possessor does not know of

of the best and most successful mothers in the

world said recently that she had no rule or

theories to depend upon in bringing up her family.

Was it because that mother loved her children better than did some other mother whose life work had been less successful? Certainly not. It was a clear case of materna' hypnotism.

So, after all, hypnotion is not new, and in its relation to the simple every-day affairs of our lives

it has always been in vogue, but we haven't known

But self-hypnotism is the most interesting part of

the subject. It explains the cause of our moods,

thing," said she, "and they do it."

nearly twenty-six years- ago, and has

SOROSIS AT BREAKFAST.

A DELIGHTFUL MEETING AND A SERI-QUS DISCUSSION.

ARGUMENTS TRO AND CON AS TO WHETHER THE

HUMAN RACE DETERIORATES PHYSICALLY AS IT ADVANCES MENTALLY. Sorosis held its second social meeting at the Waldorf yesterday, and after the usual breakfast

sembled is the ballroom and listened to the fol-

"Annie hurie"
The Rubinstein Quartette.
Air by Dudley Buck.

uestic proposed for discussion was "Can t be proven scientifically that, while the human race is developing mentally, it is deteriorating physically?" It was presented by Dr. Harriet C. Keatinge, and then taken up in the affi mative by Florence DeGaff Shaw, Dr. H. D. Esmonde Keaherine D. Burnette, and in the

tinge and Di Katherine D. Burnette, and in the negative by Stella Goodrich Russell, Dr. Mary E. Bond and May Fierence Park.

Mrs. Shaw declared that there could be no answer but "Yes." and that it could be found in the eyes and nerves of the children who are now bearing the punishment for the physical sins of their progenitors. Mrs. Russell was equally sure that the only rational answer was "No." "The average Englishman to-day" she said, "could not fight in the armor of his accestors, for the simple reason that it is too smallin the waist, too narrow in the loins and not large enough in the head. All athletic records have been broken by modern Anglo-Saxons, and they surpass historic races in general health and edurance as much as Captain Webb, who swam he English Channel, surpassed Leander, whose naatory powers were equal only

to the Hellespont.'
Dr. H. D. Esmode Keatinge maintained that machinery had taken the place of muscles, and as the latter went ou of use they must deteriorate. The extemporaneus discursion was participated a by the Rev. Phibe Hanaford, Mrs. Anna Randall Diehl, Mrs. lebecca Motse, Mrs. Margaret venhull, Mrs. Ainie Beaston, Dr Jennie de la Lozier and Mrs. Maria McCullough. Mrs. Beaston thought he size of the modern hand-kerchief sufficient proof of improved health in en at least. Her grandmother's handkerchief. ste said, was as arge as a small tablecloth, and

was intended to be wept into. The modern woman did not cry, and a handkerchi f six inches square was sufficient for jer needs.

Dr. Lozier said that a sound mind without a sound body was nathematically and scientifically

mpossible.

The following women were guests of the club for the day: Mrs. John Chapman, of the Twentieth lentury Club. Pittsburg: Mrs. Terry, Mrs. Clara A. Kern. Mrs. Athert Best. Mrs. H. L. T. Walcott, Mrs. Webb, of Baltimore: Mrs. Samuel Stearns, of Detroit; Mrs. Charles Bartram and Mrs. James A. Sperry, of the Chiropan Club, Brooklyn.

GOING ON TO-DAY.

The Ladies' Health Protective Association meets today at 12 o'clock in Room No. 12 of the Academy Medicine, No. 17 Wet Forty-third-st. Mrs. Scrim-room and the Rey. Ars. Wright, members of the brooklyn Association, will be present.

At the Normal College the Alumnae Shakespeare At the Normal Conege the Anthra and Literature Class yesterday afternoon heard the second Browning lecture of Mrs. Harriet Otis Delienbaugh. The Alumnae Library was filled to overflowing. Mrs. Dellenbaugh reads from the poet and then explains and interprets his work.

In three States-Wyoming, Colorado and Utah-women will vote to-day for the President, and it is expected that very few will shirk the duty. They have taken an active part in the campaign, and best women in the States. In two States—California and Idaho—a constitutional woman-suffrage amendment will be voted on. A favorable result is confidently expected, as the amendment has been practically indorsed by all parties. The Republicans made it a plank in their platform, the Populists indorsed it, and the Democrats gave it a large vote. Woman suffragists have advocated the measure in all sorts of political meetings, and have conducted a vigorous campaign everywhere. Busan B. Anthony has been in the West since May, and has been assisted by Mrs. Harriet May Mills, Mrs. Shaw and Miss Mollie G. Hay.

Stindents are expected to provide, at their own expense, all necessary materials, which may be had at cost prices from the class department. An examination is held at the close of each class term, when certificates will be given to deserving students. The bookkeeping, drawing, water-color and cooking classes are so well filled that there is not will have its lectures this season at the Berkeley Lyceum, No. 19 West Forty-fourth-st. Drawing ting, music, voice and instrumental; literature, the languages, philosophy, acting and oracle will be taught, and one course of lectures is given Thursdays at 4 o'clock, and another on Sunday evenings at 8 o'clock. A corps of well-known instructors has been secured, and the winter's work promises to be a success in every way.

The Executive Committee of the National Council of Women will hold a meeting in Boston on De cember 2, 3 and 4. One of the three public meetings to be held will be given up to the discussion of topics relating to local councils and cabinet offi-cers. National organizations and standing com-mittees will be taken up at the other two meetings.

The woman's edition of "The East Syracuse News" will appear on Thursday, November 5. The money made by the advertisements and by the sale of its paper will be added to the fund for building a new Presbyterian church.

The steamship St. Paul, of the American Line which sailed for New-York from Southampton last Saturday, had among its saloon passengers Miss Frances E. Willard, Lady Julian Pauncefote and her daughters, Miss Olga Brandon and Mrs. Henry

NEWS OF THE CHURCHES.

Mrs. R. S. Barrett, formerly secretary of the Florence Crittenton Home Association, and widow of the Rev. Dr. Barrett, general missionary of the Protestant Episcopal Church, will address a meeting to be held in Philadelphia next week for the purpose of promoting a greater interest in rescue mission work in Philadelphia. The meeting is the outcome of suggestions made the committee on rescue missions at the conven-tion of the Brotherhood of St. Andrew. In addition to Mrs. Barrett, the Rev. George C. Groves, of St. Luke's Church, Sea Cliff, L. I., who was chair-man of the committee, and Major Bakewell, of the Church Army, Pittsburg, will address the meeting.

the Salvation Army, recently took poison at Butte, Mont., and died in a few minutes. She had a remarkable career before becoming a member of the Salvation Army, having been for years an outlaw and a robber. Attired as a man, she led a wild and lawless life, but finally she went to Portland, Me., and, joining the Salvation Army, was an active worker in the ranks until her unaccountable sui-cide.

The annual convention of the Woman's Home Missionary Society of the Methodist Episcopal Church of the United States was held last week in Springfield. The next meeting will be in Balti-

constantly spring from this ism when well directed, a chair of hypnotism might well be established in every school and college curriculum. Mothers John Mills, who has just died at Bowdor Cheshire, England, says "The Christian Common and fathers and husbands and wives might wealth," was the author of the beautiful memoria

His work well done, His race well run, His crown well won, Here let him rest.

The stanzs, according to the contemporary just quoted, was written in memory of his brother, the Rev. William Mills, of the Methodist New Connection, and Mr. Mills was greatly surprised when years afterward, he read that it had been engraved years arterward, he read that it had been engraved upon a monument of President Garfield, in America. He tried to ascertain by what means the lines had got to America, for they had never been printed, but he never succeeded. The lines have been frequently quoted in memorial addresses and were inserted in the wreath which the Princess of Wales placed upon the grave of her son, the late Duke of Clarence.

Mrs. Matilda Carse, of Chicago, has pledged her self to free the Woman's Temple from debt, and has begun by securing a conditional gift of \$25,000 from Marshall Field.

Mrs. Charles Wheeler, who died recently in Prov idence, left several large bequests to charitable as-sociations. Among them were three missionary societies, the Seaman's Fund Society, the Congre-

hypnotized and we are powerless to overcom disgrace, and the latter makes of us very under

.............

Classes for the dissemination of the science of hypnotism would be an excellent thing. The subhas been considered a dangerous one, on account of the evil that might easily arise from knowledge of it unworthly applied. One must learn how to use it as he does fire, for example, and make it a potent force to be exercised worthly One can imagine the pessimist becoming an optimist when he understands that he is hypnotized by cynicism. One can imagine the good play that must be enacted when we cast everybody for a good part, believing no man capable of playing the villain. It seems rather a short cut across lots to the millennium, does it not?

A PATRIOTIC DEMONSTRATION.

THE REPUBLICAN WOMEN HOLD A "GOLDEN RED-WRITE-AND-BLUE MEETING." The Business Woman's Auxiliary of the Woman's

Republican Association held what it called a "golden red-white-and-blue meeting" last night at the home of Miss Clara Fredericks, No. 115 East One-hundredand-sixteenth-st. The room and chairman's desk were decorated with flags and bunting, and each member were a big gold bug on the front of her gown.
A general girification of "Old Glory" and honest
money was indulged in, and then the members settled down to the discussion of a question raised by the president, Mrs. Kathrene Lane, at the last meeting To illustrate something she was discussing, Mrs. Lane mentioned the case of a young married woman Lane mentioned the case of a young who turned breadwinner for her family when it was in great financial distress and woke up at the end of a few years to the fact that her children were growing up like little savages and her husband was already a confirmed drunkard; yet it was impossible for her to turn back then, for she was the sole dependence of all of them.

The club became so much interested in this story that it resolved to continue the consideration of it, and last night papers on it were read by Mrs. A. Kipp and Miss Clara Fredericks. An animated discussion followed, in which Mrs. Cornellus S. Robinson spoke eloquently.

CLIO CLUB ELECTS OFFICERS.

The Clio Club had a full meeting yesterday afternoon, it being the occasion of the annual election of officers. Mrs. H. T. Pierce was unanimously reelected president, with the following as assistant offi-cers: Miss Adelaide Smaller, first vice-president; Mrs. Lyman D. Fedington, second vice-president; Miss M. L. Gibbs, corresponding secretary; Mrs. H. Griswold, recording secretary; Mrs. Ferrand, treasurer; Mrs. A. M. Judson, auditor; Miss N. M. Jones, historian.

After the election the annual reports of the different After the election the annual reports of the different officers were read. The papers showed the organization to be in a flourishing condition. A large number of guests have been entertained by the club this year, and, aside from the four months' vacation, thirty-two weekly meetings were held during the working year. Next Monday the afternoon will be in charge of Mrs. Malcolm McLean, and "Washington Irving" will be the topic for study.

FOR THE SHUT-INS. From The Philadelphia Press.

From The Philadeiphia Press.

Lace manufacture by invalids is an enterprise which exists in Chicago, thanks to Miss K. L. Hunting. Family reverses forced Miss Hunting to support herself, and she took up lace designing. She had learned lace-making as a pretty employment for idle hours, and now turned to this accomplishment to varn her living. She met with success at the start, and when she found herself well launched in the business she conceived the idea of helping others to make the lace, she to devote her efforts to selling the lace to the wealthy people in cities and seaside resorts. She obtained addresses of those in need of work from the secretary of the Shut-In Society of Invalids.

She has built up the business among them till she now has fifteen more or less regularly employed, scattered all over the country, from quiet New-England farmhouses to pioneer homes in the Far West. They are all invalids for the rest of their lives, many of them doing the work in the solitude of their own sick chambers, patiently and carefully, with their languid fingers, incapable of any heavier occupation.

Filagree fineries of flounces and jabots, which are seen at bails and parties on the fine gowns of society belles, have pathetic life histories wrought in leaf and bud, and the rosaries of cheerful patience are told stitch by stitch in the garjands of gossamer roses that adorn the handsomely dressed women of the gay society world.

Miss Hunting has done far more than simply providing a way for these members of the Bhut-In Society to earn some money. She has given them also a chance to indulge their artistic and aesthetic taste. She has taught them all how to do the work, for only one or two knew anything about lace-making when she proposed it to them. Some of them are more expert than others, but Miss Hunting knows what each can do, and provides them dies are here in work has in the six years since it was begun greatly changed the lives of these invalids.

Besides the independence of being self-supporting, it has given th

AH, WOE IS ME!

Pause, stranger, pause, as you pass by, And shed a briny tear In kind memory of him Who lies interred here.

I did not die of fever dread,
Nor cramps, nor indigestion;
I cronked of too much telling how
To solve the money question.

of the Woman's Canadian Historical Society of Toronto. Mrs. Curzon is well known in Canada as a graceful writer, and as one who was instrumental, in co-operation with others, in obtaining, after a hard fight, admission for women to the universities, and egeducation with men. The record of her daughter is widence of the value of the privileges thus obtained.

A large number of Toronto women now avail themselves of university education. Toronto University, Victoria University of Toronto; McMaster Hall (Baptist) and Trinity University (Episcopal) now open their doors to women. St. Hilda's College is the residence for women who attend Trinity University. Victoria and Toronto universities have plans for separate college residences for women. Mouiton Ladies' College is a branch of McMaster University, Victoria and Toronto universities have plans for separate college residences for women. Mouiton Ladies' College also prepares students for matriculation.

Until the last session Miss Edith M. Curzon was the only woman on the regular staff of the Toronto Technical School. Mrs. Jean Joy, a Canadian, and graduate of the Boston Institute of Technology, has been lately appointed in the department of domestic science. The course includes talks on the chemistry and nutritive value of foods, food adulteration, the sanitation and furnishing of the kitchen and practical cookery. At the opening of the present session, the managers announced that on if twenty pupils presented themselves. About three hundred young women appeared, and word was received that more were coming; greatly enlarged accommodations had to be provided, and several classes were organized. Next year the top flat of the building will be arranged for the role use of this department, and other branches of the care of the household will be included in the general instruction given.

MUSEUM OF ART RECEPTION.

HUNDREDS OF VISITORS VIEW THE NEW COLLECTIONS.

The autumn reception of the Metropolitan Museum of Art, held yesterday afternoon, was in every way a most successful affair. It was the thirty-first of the semi-annual exhibitions, and an unusually large number of people responded to the invitations which were issued. The large attendance was doubtless acquisitions of the Museum. These consist of a large number of pictures, and valuable additions to the department of antiquities. The most important of them were mentioned in last Sunday's Tribune. From I until 5 p. m. yesterday the large galleries of the building were filled with constantly moving throngs of guests, among whom were most of the prominent supporters of the Museum, and several foreigners of note. Although all the rooms received their share of attention, it was evident that the chief interest centred upon the new painting, and among these the Joseph Jefferson loan collection seemed most attractive. Many admiring comments were made upon the portrait of John Philip Kemble, by Sir Thomas Lawrence. The eight paintings given by George A. Hearn were also much praised, together with the additions which he has made to his already large loan exhibit.

who were present: General Louis P. di Cer Mme. di Cesnola, Miss di Cesnola, Miss Louise di Cesnola, Henry G. Marquand, Mr. and Mrs. Alan Marquand, F. W. Rhinelander, Mr. and Mrs. John Crosby Brown, William E. Dodge, William L. An-Hitchcock, Samuel P. Avery, Salem H. Wales, D. O. Mills, George H. Story, Baron and Baroness Fava,
